

FEATURES & FINISHES

NAUTICA'S DISTINCTIVE FEATURES

- Nautica is located directly across Lakeshore Drive from the Barrie Marina, and Centennial Beach Park.
- Each suite offers spectacular lake views and generously sized balconies with glass railings.
- Each tower features high-speed gearless elevators opening on to air-conditioned hallways in the style of a grand hotel.
- The lush, landscaped garden terrace overlooks Kempenfelt Bay and features a majestic arched stairway allowing direct access to the Lakeshore.
- Each suite includes one indoor parking space and storage locker.
- The Master Plan for Nautica includes a proposed complete re-design and rehabilitation of Bunkers Creek adjacent to the residences. Here, a three acre eco-park is proposed with ponds, walking trails, outdoor seating areas and natural wetlands.
- A graceful circular driveway leads to an elegantly furnished marble lobby and glazed colonnade leading to the main floor lobby.

The second floor amenity space will be created in two phases:

- Phase One will include a games room, fully furnished guest suite, the beautifully landscaped Garden Terrace and Lounge, and a large sumptuously appointed indoor pool with whirlpool spa, saunas and change rooms. The pool area will overlook the Garden Terrace and offer exciting vistas of Kempenfelt Bay.
- The Phase Two portion of Nautica's complete amenities space will feature a private meeting room, a fully furnished guest suite, a multi-purpose room, and an oversized party room and fully equipped fitness centre, both of which will overlook the Garden Terrace and the glittering panorama of pristine Kempenfelt Bay.
